RECEPTIONS. WE ARE AUTHORIZED TO ANNOUNCE that the Ladies of the Executive Mansion. Mrs. Patterson and Mrs. Stover, will be at home on Monday evenings, after seven o'clock. The evening has been fixed upon for the drawing-room receptions of the ladies in lieu of the afternoon as during last season, and they will receive every Monday evening until further notice.

SPEAKER COLFAX'S RECEPTIONS are to be every Friday evening, from 8% to 11 p. m. The receptions of the Speaker's mother and sister, Mrs and Miss Matthews, for ladies, and gentiemen accompanying them, will be every Wednesday afternoon, from 1 to 4 p. m. The-Speaker's weekly receptions will close on the last Friday of March.

AN EXPERIMENT IN LIVING. The Pall Mall Gazette describes a new experiment in living, now making in that part of London known as Belgravia. The attempt is to provide accommodations, somewhat after the French fashion, for that large class of people in good circumstances, bachelors, single ladies, or married couples without family, who are afraid to face the trouble and expense of becoming householders, especially as small houses of the size that would suit them are rarely to be obtained in a good situation, even at a high rent; and who, on the other hand, find an irksome sacrifice of independence in ordinary lodgings. To accomplish this result a large pile of buildings, called "Belgrave Mansions," has been built on Lord Westminster's estate. The robms are let singly or in suites as unfurnished apartments, each tenant having the liberty, of course, to furnish and fit them up as he pleases. The company provides all necessary service, and there is a coffee room for the use of the tenants. There is no obligation, implied or understood, that the tenants should take their meals in the house; they are free to live just as they like; in short, it is proposed that they shall enjoy as much privacy and independence as if they were in a house of their own.

Some such plan as this will have to be adopted in this country, in order to accommedate the large class who cannot or will not keep thing equivalent, and there will be a handsome return of rent to any one who will set the movement in progress.

THE CIRCULATION OF OBSCENE PUBLICA- alarm of the citizens of said district : TIONS.-We have heretofore referred to the action of various city corporations, railroad companies, and other corporate bodies to break up a growing nuisance, being the sale and circu- said committee to have power to send for perlation of a class of illustrated publications, which are offensive to delicate and refined tastes, and disgraceful because of their violation of all the laws of decency and propriety. Baltimore is now aroused to the necessity of doing something in the same direction, and we see by the papers from that city of this morning, that the Grand Jury having been memorialized upon the subject, have addressed a communication to Judge Gilmor, of the Criminal Court, in regard thereto In his response the Judge recommends the presentment of persons who may be guilty of such violations of common decency and the code of public laws, and intimates that such punishment will be imposed upon these offenders as the importance of the cases may demand.

THE MARYLAND SENATORSHIP .- The Senatorial question is again looming up at Annapolis. A caucus of the Eastern Shore members, to whom the question was submitted, have determined by a large majority that the rejection of Mr. Tho.nas by the United States Senate has created a vacancy which, of course, will render a new election necessary. It is believed that the Legislature will agree with this conclusion. A number of candidates are already announced, among whom Hon. Thos. McCullough, the present Democratic member from the First Congressional District, is one of the most prominent. The Hon. Isaac D. Jones, of Somerset county, the present Attorney General of the State, is also mentioned as a probable candidate. Mr. Swann, it is said, is again a candidate, and his friends claim to be confident of his success.

MR. INGERSOLL, Chairman of the House Committee on the District of Columbia, certainly deserves the thanks of the people here, not only for the intelligent manner in which he disposes of local matters requiring his attention, but for the justice and impartiality which prompts him to defend the interests of the District when they are placed in jeopardy by the well disposed but injudicious interference of legislators, who have not had his experience in regard to affairs here. Thus, his prompt and judicious defense in the House yesterday of the item in the civil appropriation bill for the Metropolitan Police force, on the ground that the Government has fifty millions dollars worth of property to be guarded here, on which property they pay into the city treasury no taxes, was an unanswerable argument, based on right and justice.

THE POSTMASTER GENERAL .- It is due to Postmaster General Randall to state that the detail of some testimony in the Daily Globe tending to implicate that officer of the Government in a fraudulent connivance in certain contracts for carrying Southern mails, is without the least foundation, and has no semblance of truth whatever. The testimony of Charles Gould, of New York, who was examined before the Select Committee on Southern Railroads, disproves all such allegations as were made in the paper referred to, and completely vindicates Mr. Randall and exonerates him from any knowledge of the matter.

THE WORKING PEOPLE.-It is announced that the masons, of Hartford, Ct., have formed a protective association designed to assert the mutual dependence of capital and labor. Work is brisk at the Housatonic railway shops in Bridgeport, Ct. The company are just commencing to build some new passenger and baggage cars. The Newburyport Herald says, "O, the joyful sound! The Globe Mill bell, after a silence of months, rang on Friday, to call the workers together. A hundred hands are there employed getting ready for manufacturing cotton goods."

DEFEAT OF THE EIGHT HOUR LAW IN MARY-LAND.-In the Maryland Senate yesterday the House resolutions declaring it inexpedient for Maryland to adopt the eight hour labor system were adopted, with the section of the resolutions, as reported from the House, which declares it the duty of Maryland to adopt the system when it is adopted by New York and other manufacturing States, stricken out.

LADY DON has selected for her benefit at the National Theatre this evening, "The Child of the Regiment" and the burlesque of "Kenilworth," when she will introduce some of her choicest vocal efforts.

NEW PUBLICATIONS,-This is a reading ,age and the demand for books is great, but fortunately does not exceed the supply. The publications of that enterprising firm. J. B. Lip-pincott & Co., Philadelphia, are got up in good style, and are calculated to suit the taste of readers of all kinds, as a reference to the very full list of new books issued by that firm, and advertised in the STAR of Wednesday, will show. Among them are W. Hepworth Dixon's new book, "Spiritual Wives;" Lewis H. Morgan's "American Beaver and his Works;" Rev. Lemuel Moss's "Annals of the United States Christian Commission." Arthur Help's all the states of the Commission." tian Commission;" Arthur Help's "Life of Las Casas, the Apostle of the Indies;" Dr. Thomas H. Dyer's "History of the Kings of Rome:" the Globe edition of Bulwer's Novels; new edition of Thackeray's Novels; Baker's Abyseinia; John P. Brown's "History of the Dervishes;" Fichte's "Science of Knowledge," from the German; a new novel, "The White Rose;" "The Voice in Singing," from the German, &c., &c.

The Convention hereafter will have two day sessions. An anti-relief party was inaugurated Wednesday night by thirty delegates. Articles were adopted prohibiting duelling, defining treason against the State, and prohibiting property or educational qualifications for electors. ALABAMA .- A dispatch from Montgomery last night says. "The returns from all the counties in which elections have been held have been received, but their publication is still forbidden. A negro man who was known to be opposed to the League, and used his influence to keeping negroes from voting, was killed by a violent Radical negro on Saturday night, about twenty miles from the city."

GREAT FALLS ICE COMPANY,

This company respectfully announces that they have completed their arrangements for supplying the community with ice.

By steam machinery of the most approved plan, erected at each of our ponds, we have stored about twenty thousard tons of as pure ice as can be found anywhere. We have also made arrangements to furnish Boston and Kennebec ice to those who may desire to be supplied therewith. Not having been prepared to furnish the public with a full and constant supply of ice last year, we sold all we then harvested to Messrs. Fowler, Middleton & Godey, (the Georgetown and Washington Ice Compan,) at their offer, at \$3.75 per ton, delivered and weighed daily at their depots, under their promise to supply it to the public promptly, and at such advance upon its cost as would yield them a fair profit thereon. How they fuifilled their promises their many victims can answer. They retailed our ice at from TWENTY TO THIRTY DOLLARS per ton, often representing it as Boston ice, than which it was in no way inferior. We did not consider their attempts to underrate the Great Falls ice as worthy of our notice.

Composed of our own citizens, this commany have

Composed of our own citizens, this company have determined to carry on the "ICs BUSINESS" in such a manner as to protect the community from MONOPOLY and IMPOSITION. We employ during the winter season from three to four hundred resident mechanics and laborers, and expend in and secure to this District thousands of dollars which would otherwise be sent abroad.

The people of the District will hereafter be supplied with our ice by indenpedent retailers, whose interest it will be to furnish it at the lowest prices, at early hours, and give fu'l weight.

Reing a regularly INCOBPOBATED COMPANY, we guarantee the strictest compliance with our contracts; and satisfied with a reasonable return for the capital we have invested in this enterprise, we will supply ice in this market for the entire year
